

## You want to work with NuriyaART? PERFECT!

Hi! My Name is Marina and I am a mixed media artist from Germany, who loves to draw cute girls and witchy stuff, while eating sweets and drinking lots of energy drinks. Before we start, you should know:

- **I am a teamplayer!** Either from large companies/agencies to just you and me
- I am always in favour of a **friendly enviroment**, because I think that life itself is stiff enough sometimes
- My specialties are **punctuality** and being **always responsible with my deliveries and costumers!**
- Each project is dear to me, therefore **I put all my heart and love, time and effort into every illustration I do.**

## What does it mean to work with me?

- **Having fun**, while working on **something special** together, you and me
- I like to have both agencies and clients present at each step of the project, including comments and corrections
- A unique result, full of passion and **the own distinctive NuriyaART stamp.**
- **Positive vibes** and e-mails with a caring personality on both ends

## Some working conditions

\* These are some requirements, that will help us greatly in keeping the right path and bringing the project to an awesome ending for both parties.\*

- To maintain my mental sanity, **the corrections and adjustments will not be infinite**; making more adjustments, (as the two, that are always included) will have an additional charge.
- My illustration style has it's own organic freehand line: therefore (as I am a human being) **there will be no exact perfect lines and circles.**
- When the project is over, I will deliver **a nice high-res illustration in PDF or high quality PNG/JPEG** (whatever you prefer most). I will not deliver the originals, or layered files.
- About the payment: it must be made via electronic deposit to my bank (only available in Germany), or via **Paypal** within 14 days after recieving the invoice, if not otherwise established in the offer. I'll take 50% payment upfront, after finishing the project, you'll recieve a watermarked, low-res file of the final Illustation and the un-watermarked, high-res file, as soon as the other half of the payment is through.

## How to order an Illustration with NuriyaART

Do you have a project for your company in mind? Or maybe a family portrait? Answering these simple questions will make the whole process quick and painless. So send me a mail to [info@nuriyaart.de](mailto:info@nuriyaart.de)

In order to estimate the price for your illustration, I need this three answers regarding your project:

- **What is it, and what is it for?** (is it a portrait? Fullbody illustration? Birthday card?)
- **How big is it?** (A5, A4...) **And how many they will be?** (if it's more than one illustration, how many units will they be?)
- **When is the deadline?** (tomorrow? Two weeks? In a month?)

With these answers, I can estimate how much time and work it will take me, to do the project for you. And with that clear, I can give you an estimated price, with an offer for your project.

Any questions? **Don't hesitate to write me!**
